

Nordic Secondment in Stockholm

Close collaboration between our Nordic offices is one of the core things in our business. We've designed a *Nordic Secondment Week programme* for our young talented lawyers in Norway, Sweden, Finland and Denmark. Secondments under the programme are offered once a year in September. The secondment gives our young lawyers the opportunity to visit another Nordic office and work with their Nordic colleagues for a week. Each office hosts three secondees from different locations.

"One of the reasons why I started my career at DLA Piper after my studies is that the firm can offer something no other Norwegian law firm can - a large global network and international cooperation across different jurisdictions. Participating in the Nordic secondment program is a great opportunity to build network and friendships across borders. It has also been very useful to see how our Nordic colleagues work and I have gained new input that I can bring home with me to Oslo. I strongly believe that this is something both myself and my clients can benefit from." – Johan Andre Eikrem, Associate, Oslo.
