

Re-Match Denmark creates joint venture and moves into France

Karsten Pedersen
Partner

John Emil Lyngfeldt Svenson
Partner

Re-Match Denmark has agreed to enter into a joint venture with a group of French investors in order to move into France.

Re-Match Denmark is the first and only company to recycle 95% of synthetic turf and in 2019 it was backed by the Nordic growth fund Nordic Alpha Partners.

The expansion into France will serve as a strategic platform to service neighbouring markets in Switzerland, Austria, Southern Germany and Northern Italy.

The closing of the transaction is expected to take place in the autumn of 2020.

The core deal team from DLA Piper was led by Karsten Pedersen, John Emil Lyngfeldt Svenson and Per Kristiansen, who advised Re-Match Denmark in connection with the transaction.
